

THERMOTEX

Bespoke Protective Soft Cover Solutions

Bespoke solutions for every application

THERMOTEX Bespoke Soft Cover Solutions allow for the insulation and protection of equipment where weight, space, access or high temperature concerns are of premium consideration.

- Unrestricted access to insulated items thanks to tool-free removability and re-installation
- Ability to cover simple or complex shapes
- Wide range of operating temperatures (-60°C - +1.000°C)
- No maximum size limitations
- Self-supporting construction - no auxiliary elements required
- Shorter installation time than traditional installation
- Frost-proof, weather-proof, chemical-proof, UV-proof (material dependent)
- Flame retardant
- Ideal for retrofitting
- Antistatic, explosion-proof option available

INTERTEC offers more than you can see.

- Thermally insulated cabinets, enclosures, covers and shelters
- Enclosed instrument hook-ups
- Analyzer houses
- Fire protection boxes
- Heating, ventilation, cooling

- Quality engineering
- Proven designs
- CAD
- Calculations
- Easy integration
- Reliable and long-lasting operation of electronics
- Fire protection
- Explosion protection
- Comprehensive documentation
- Relevant certification
- Procurement & logistics
- Low total cost of ownership

Since its founding over 50 years ago, INTERTEC has grown to a worldwide engineering and sales organization with locations in Germany, Canada, Russia and the United States. To provide technical solutions for grassroots projects and existing MRO markets, INTERTEC has a sales partner network spanning 31 countries around the globe.
